Un coup de pouce pour de bonnes habitudes financières

Une sortie au cinéma, un ticket de train pour une première escapade sans vous, ou l'envie d'économiser pour cette paire de sneakers tendance... Autant de moments qui comptent et qui apprennent à votre ado à gérer son argent. Et aujourd'hui plus que jamais, cet apprentissage est essentiel. Car les sollicitations sont partout: en ligne, sur les réseaux sociaux, dans la vie de tous les jours... C'est pour cela qu'un bon accompagnement fait toute la différence.

An all-in-one account for children

Add a debit card and/or a savings account, and give your child access to **online banking** (from age 7) and mobile banking (from age 12) via your **Easy Banking App**.

Easy and secure payments

From age 12, your child can pay via QR code in-store and online using Easy Banking App. Payments via smartphone or smartwatch, such as Apple Pay, are also possible.

For your peace of mind

Payment and withdrawal limits are adapted to your child. Standard limits are €250 per week, and you can adjust them at any time.

Parental control

You manage your child's debit card via the app: enable online or contactless payments, unblock the PIN, allow use in or outside Europe, or block the card via Card Stop.

Open a free Welcome Pack for your child* this summer and get a chance to win AirPods!

Taking part is easy:

- Open a Welcome Pack current account before 30/09
- Answer two questions
- Fill in your details and confirm your entry

Do you have more than one child? No problem, everyone has a chance! Open an account per child and enter the competition for each of them.

How do Belgian banks communicate similar products differently, and what can ING learn from those differences?

- Can we build a structured and reproducible way to compare competitor campaigns?
- Which patterns can we identify in how banks communicate?
- We believe competitors communicate differently. Can we prove it, measure it, and explain it ?

So what's the project about?

- **What?**

- We don't know. We are just the stakeholders – And there is no unique solution.
- You have to convince the business that your solution is solving the/a business problem.

- **How?**

- Different possible approaches
 - Web scraping. Be mindful to be compliant ! We can't do what ever we want.
 - Requirement: Be fair, unbiased, and suggest a reproducible solution.

- **For sure...**

- You have to convince that what you have done is impactful and valuable.
- It's a POC not a solution to be deployed in production.
 - Define properly your scope. Banks, Campaigns, ...
